Miral Kansagara

Quality Analyst | Data Analyst | API & Manual Testing | SQL • Python • Power BI • Software/ App Tester

Windsor, ON | mcmiralchangela@gmail.com | (519)-551-6890 | https://www.linkedin.com/in/miral-kansagara-5050a0119/

Location: Windsor, Ontario, Canada (Open to Onsite) **| github.com/miralchangela | PR Status:** Permanent Resident

Quality Assurance Analyst and Data Analyst with 7+ years of experience in manual testing, API validation, data quality analysis, and reporting within Agile environments. Proven expertise in developing test plans, executing functional and regression testing, tracking defects, and analyzing quality metrics to improve release stability. Strong background in SQL, Python, Power BI, and data validation to ensure product reliability, performance, and accuracy. Experienced in collaborating with cross-functional teams to enhance quality assurance processes, testing standards, and continuous improvement initiatives.

TECHNICAL SKILLS:

- Quality Assurance & Testing: Manual Testing, Functional Testing, Regression Testing, Exploratory Testing, UAT, API Testing, Test Case Design, Defect Tracking, Test Documentation, Release Readiness
- Data Analysis & Quality: Data Collection, Data Validation, Root Cause Analysis, Trend Analysis
- Tools & Technologies: Jira, Notion, Postman, Power BI (Data Modelling, DAX, Dashboards), Aws QuickSight, Git
- Microsoft Excel: Advanced Formulas, Pivot Tables, Power Query, Power Pivot
- Programming: Python (Pandas, NumPy, Web Scraping, Automation)
- Databases: PostgreSQL / MySQL (Joins, CTEs, Subqueries), MS SQL Server

WORK EXPERIENCE:

Data Analyst (QA-Focused Role), Styx Intelligence, Remote, Canada **May 2023 – Dec 2025**

- Developed and maintained production and quality-focused dashboards using Power BI and Amazon QuickSight to support performance monitoring and leadership decision-making.
- Collected, validated, and analyzed large volumes of operational and quality-related data using SQL and Python to ensure data accuracy and consistency.
- Automated data ingestion and validation workflows using Python (Pandas, APIs), reducing manual effort by 30%.
- Developed and executed test plans, test cases, and test scripts to validate functionality, performance, and end-to-end workflows.
- Conducted manual functional, regression, and exploratory testing of the StyxView platform to ensure release readiness.
- Identified, documented, and tracked defects with detailed root cause analysis, improving defect resolution time by 25%.
- Collaborated with development, product management, and operations teams in Agile sprints to ensure quality throughout the SDLC.
- Monitored and tracked quality assurance metrics including defect trends and test coverage to support continuous process improvement and release stability.

QA Data Analyst, Murani Infotech Pvt. Ltd, Rajkot, India **Nov 2019 - April 2023**

- Analyzed large datasets (100K+ records) related to operations and compliance for a School Management System used by 20+ institutions.
- Performed ETL and data validation using SQL, Python, and Excel to maintain high data quality and reporting accuracy.
- Developed Power BI dashboards and SQL-based reports to track KPIs and operational performance, improving reporting efficiency by 35%.
- Conducted data quality audits and validation checks, reducing discrepancies by 20% through standardized processes.
- Supported QA efforts by performing functional testing on reporting modules and validating application data outputs.
- Documented defects and collaborated with developers to ensure corrective actions and system reliability.

Quality Assurance Analyst, Seven Hexa, Ahmedabad, India **Apr 2016 - Oct 2019**

- Conducted manual testing for web and mobile applications including functional, regression, integration, and UAT testing.
- Designed and executed 50+ structured test cases ensuring comprehensive test coverage.
- Performed API testing using Postman to validate endpoints, response structures (JSON), and data consistency.
- Documented defects with detailed steps, severity levels, and impact analysis.
- Reduced post-release defects by 15% through improved test coverage and structured QA processes.
- Participated in requirement analysis to ensure quality standards were integrated early in the development lifecycle.

EDUCATION:

University of Toronto School of Continuing Studies **Aug 2022 - Feb 2023**

- Certificate in Data Analytics & Visualization

Gujarat Technological University **Sep 2013 - Jul 2015**

- Master of Engineering

Gujarat Technological University **Jun 2009 - July 2013**

- Bachelor of Engineering

CERTIFICATES:

Data Analysis and Visualization, Udemy.com Oct 2022

Introduction to Python, DataCamp May 2022

Android Development, Vedansh Infoway Pvt. Ltd Apr 2016
